year()

Returns the current year as a number such as 1999.

Examples

```
function setup() {
  createCanvas(100, 100);

  background(200);

  // Get the current year.
  let y = year();

  // Style the text.
  textAlign(LEFT, CENTER);
  textSize(12);
  textFont('Courier New');

  // Display the year.
  text(`Current year: ${y}`, 10, 50, 80);

  describe(`The text 'Current year: ${y}' written in black on a gray background.`);
}
```

Returns

Integer: current year.
