

# remove()

Removes the element, stops all audio/video streams, and removes all callback functions.

## Examples

p5\*js

```
let p;

function setup() {
  createCanvas(100, 100);

  background(200);

  // Create a paragraph element.
  p = createP('p5*js');
  p.position(10, 10);

  describe('The text "p5*js" written at the center of a gray square. ');
}

// Remove the paragraph when the user double-clicks.
function doubleClicked() {
  p.remove();
}
```
