rows

An array containing the p5.TableRow objects that make up the rows of the table. The same result as calling getRows()

This page is generated from the comments in src/io/p5.Table.js . Please feel free to edit it and submit a pull request!

Related References

addColumn
Use addColumn() to add a new column to a Table object.

addRow
Use addRow() to add a new row of data to a p5.Table object.

clearRows
Removes all rows from a Table.

columns
An array containing the names of the columns in the table, if the "header" the table is loaded with the "header" parameter.
